Cougartron Laser Cleaning Machine

200P Laser Cleaner

Compact, light, and mobile — anywhere, anytime.

The Cougartron 200P delivers industrial laser performance in a portable unit weighing just 12 kg. Built for contractors, renovation crews, and service teams who need to move fast, it provides clean, precise results every time

With 12 cleaning patterns and adjustable pulse control, you can switch instantly between wide-area cleaning and fine detail work. Rust, paint, oil, or oxides — the Cougartron 200P removes it all without abrasives, water, or chemicals.

- Backpack-sized and air-cooled — plug in anywhere, clean anytime
- Adjustable settings — from delicate restoration to tougher industrial jobs
- 2D scanning head for precise control
- Only 12 kg — easy to carry and transport

Ideal for renovation, repair, and maintenance, or any job where precision and portability matter as much as power
